Latest Advances in Glaucoma, Cataract and Refractive Surgery: Expert Views

Message from the Guest Editors

There have been great advances in the study of the anterior ocular segment. Specifically, the most modern imaging techniques have revolutionized the study of glaucoma allowing, including better in vivo characterization and outflow pathway studies.

Regarding cataract and refractive surgery, new imaging technologies help to evaluate refractive implants and their in vivo interaction from a new perspective.

Moreover, recent efforts have attempted to more precisely determine the risk of postoperative ectasia by combining different technologies. In addition, there are numerous new therapeutic proposals that exist in the aforementioned areas, which aim to achieve a more individualized and personalized treatment for each patient.

This Special Issue will aim to collate expert views on the latest developments in the diagnosis and management of the anterior ocular segment. We invite authors to submit original research articles and reviews relating to the diagnosis and management of glaucoma, cataract, and refractive surgery to ensure a diverse and comprehensive representation of the latest developments in this field. We look forward to receiving your submissions.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
