Update on Acute Severe Respiratory Infections

Message from the Guest Editor

Severe pneumonia is a major problem in ICU and in general medicine. With the growing interest in new diagnostic techniques and in light of the recent pandemic, the management of severe pneumonia is changing. New antibiotics and non-antibiotic therapeutic strategies have emerged. This Special Issue has been designed to provide up-to-date information in this field for intensive care physicians and other clinicians involved in the care of patients with pneumonia.

Guest Editor

Prof. Dr. Jean-Francois Timsit

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
