Robotic Surgery in Urology: Current Advances and Future Perspectives

Message from the Guest Editor

We are pleased to inform you that we are organizing a new Special Issue entitled “Robotic Surgery in Urology: Current Advances and Future Perspectives” for the *Journal of Clinical Medicine*. Robotic surgery has become the surgical approach of choice in modern urology, moving from limited indications to standard of care for major malignant and benign urological conditions, particularly in oncology and reconstructive procedures. Recent advances focus on the availability of multiple robotic platforms, single-port technology, augmented reality and sensory simulation, as well as the use of artificial intelligence, increasingly enabling precision surgery. The purpose of this Special Issue is to summarize the latest innovations in robotic surgery in urology and the future perspectives that may be derived from current research. Urologists and engineers are encouraged to submit their findings as original articles or reviews to this Special Issue.

Guest Editor

Dr. Davide Campobasso
Department of Urology, San Camillo De Lellis Hospital, 02100 Rieti, Italy

Deadline for manuscript submissions

22 December 2026

About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
