

Special Issue

New Insights into Acute Care and Emergency Surgery

Message from the Guest Editors

Acute care and emergency surgery are vital components of clinical medicine, addressing urgent and life-threatening conditions that require immediate attention. This Special Issue aims to explore new insights and advancements in the field. Over the years, significant progress has been made in the understanding and management of acute care and emergency surgical cases. Innovative treatment protocols, advancements in anesthesia and surgical techniques, and the use of advanced imaging and diagnostic tools have significantly improved patient outcomes. The integration of cutting-edge technologies has transformed acute care and emergency surgery practices. Telemedicine, point-of-care testing, and mobile healthcare solutions have facilitated rapid communication and diagnosis, especially in remote and resource-limited settings. Additionally, advancements in minimally invasive procedures and robotic surgery have revolutionized the approach to emergency surgical interventions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
