

## Special Issue

# Clinical Advances in Arrhythmology

### Message from the Guest Editor

In the last few years, Arrhythmology has made amazing progress. New technologies such as left bundle branch area pacing or zero-fluoroscopy device implantations are revolutionizing Cardiac Stimulation, probably for the first time in over several decades. Imaging techniques are fundamental not only as a guide to implantation, but also to evaluate cardiac performance with myocardial work analysis and other new indexes. On the other hand, Electrophysiology has seen the establishment of three-dimensional electro-anatomical mapping systems, with new systems, now also combined with intracardiac echocardiography. Furthermore, new forms of energy delivery for transcatheter ablation, such as electroporation, are emerging and being used together with traditional ones such as radiofrequency and cryoablation. In addition to technological advancements, there has been a growing emphasis in Arrhythmology on personalized medicine with new treatment options becoming available to clinicians and tailoring treatment plans based on the unique genetic profile of patients.

### Guest Editor

Dr. Michele Malagù

Cardiology Unit, Azienda Ospedaliero-Universitaria di Ferrara, 44124 Cona, Italy

### Deadline for manuscript submissions

closed (31 October 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
