

Special Issue

Recent Developments of Radiotherapy in Oncology

Message from the Guest Editors

Radiotherapy continues to be a cornerstone in the treatment of various cancers, with ongoing innovations enhancing its precision and efficacy. This Special Issue, entitled "Recent Developments of Radiotherapy in Oncology", aims to explore the latest advancements that are transforming the landscape of cancer treatment. We invite submissions of original research and reviews that highlight novel techniques in radiotherapy. Key topics include advancements in image-guided radiotherapy, adaptive radiotherapy, and the integration of artificial intelligence to optimize treatment planning and delivery. This Special Issue seeks to collate a comprehensive collection of research that not only elucidates recent technical and clinical advancements but also envisions future directions in the field. By doing so, we aim to enhance clinical practice and improve outcomes for oncology patients.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
