Special Issue

Recent Application of Neuroendoscopy in Neurosurgery: Complications and Management

Message from the Guest Editor

Neuroendoscopy has revolutionized the field of neurosurgery, providing minimally invasive approaches to complex intracranial disorders. As the adoption of these techniques widens, understanding the spectrum of associated complications and their management is imperative for improving patient outcomes. This Special Issue aims to collate a comprehensive range of research articles and reviews that address the challenges and innovations in neuroendoscopic procedures. We welcome contributions that explore the technical nuances, safety, and efficacy of neuroendoscopy, including the management of common and rare complications. Studies on patient selection, preoperative planning, intraoperative techniques, and postoperative care are particularly encouraged. Contributors may also present advancements in equipment and technology, operative methodologies, and educational strategies for training neurosurgeons in these procedures. By highlighting recent developments and discussing the complexities of complication management, this Special Issue seeks to provide a valuable resource for neurosurgeons. enhancing both practice and patient care in the field of neuroendoscopy.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
