Minimally Invasive Surgery for Gastrointestinal Disorder

Message from the Guest Editor

Gastrointestinal diseases are common diseases in the global population, including general inflammatory gastrointestinal diseases, peptic ulcer, gastric cancer, esophageal cancer, colorectal cancer and irritable bowel syndrome. Surgical treatment of gastrointestinal diseases mainly includes open surgery and minimally invasive surgery. Minimally invasive surgery (MIS) has revolutionized the treatment of gastrointestinal (GI) disorders, offering significant advantages over traditional open procedures. Leveraging technologies such as laparoscopy and robotic systems, MIS has become the standard approach for many GI diseases, characterized by smaller incisions, reduced tissue trauma, faster recovery, and lower rates of complications. This Special Issue welcomes submissions of research related to gastrointestinal diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
