Therapies for Heart Failure: Clinical Updates and Perspectives

Message from the Guest Editors

As societies evolve, the signs and symptoms of HF are also adapting, showing considerable variation across populations depending on race, ethnicity, cultural background, lifestyle, and the presence of comorbidities such as cancer or diabetes mellitus. Clinical manifestations, along with associated comorbidities, significantly influence the progression of HF, compelling clinicians to tailor treatment plans and explore novel therapeutic avenues. At every major cardiology conference, innovative diagnostic techniques, clinical strategies for symptom relief, and a spectrum of treatment options—from new pharmacological agents to minimally invasive device implants and advanced cardiac surgery—are being presented and discussed. This Special Issue will be dedicated to advancing our understanding of the etiology and management of HF. We welcome the submission of original research articles and reviews that align with this aim.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
