Inflammatory Bowel Disease: Clinical Advances and Therapeutic Prospects

Message from the Guest Editor

Inflammatory bowel disease, encompassing Crohn's disease and ulcerative colitis, casts a long shadow over the lives of millions worldwide. The relentless cycle of inflammation, pain, and uncertainty can be immensely debilitating, demanding not only exceptional medical care but also unwavering resilience from patients. Yet, amidst the challenges, a beacon of hope shines brightly: unprecedented scientific advancements are illuminating the path towards better diagnosis, more effective treatments, and improved quality of life for individuals living with IBD. Having cared for IBD patients firsthand, I understand the profound impact this disease has on their lives. The relentless symptoms and uncertainty can be truly devastating. This Special Issue offers a unique opportunity to showcase research addressing not only the biological aspects of IBD but also the holistic needs of patients, ultimately improving their quality of life and well-being. We invite you to contribute your groundbreaking work, illuminating diverse aspects of the disease journey, from the intricate dance of genetic and environmental factors to the development of personalized therapeutic strategies.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
