Inflammatory Bowel Disease: Clinical Advances and Therapeutic Prospects

Message from the Guest Editor

Inflammatory bowel disease, encompassing Crohn's disease and ulcerative colitis, casts a long shadow over the lives of millions worldwide. The relentless cycle of inflammation, pain, and uncertainty can be immensely debilitating, demanding not only exceptional medical care but also unwavering resilience from patients. Yet, amidst the challenges, a beacon of hope shines brightly: unprecedented scientific advancements are illuminating the path towards better diagnosis, more effective treatments, and improved quality of life for individuals living with IBD. Having cared for IBD patients firsthand, I understand the profound impact this disease has on their lives. The relentless symptoms and uncertainty can be truly devastating. This Special Issue offers a unique opportunity to showcase research addressing not only the biological aspects of IBD but also the holistic needs of patients, ultimately improving their quality of life and well-being. We invite you to contribute your groundbreaking work, illuminating diverse aspects of the disease journey, from the intricate dance of genetic and environmental factors to the development of personalized therapeutic strategies.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
