Advancements and Challenges in Treating Chronic Myeloproliferative Neoplasms

Message from the Guest Editors

This is an invitation to be part of a new Special Issue of the *Journal of Clinical Medicine* (*JCM*) entitled “Advancements and Challenges in Treating Chronic Myeloproliferative Neoplasms”. BCR::ABL1-negative chronic myeloproliferative neoplasms (MPNs), essential thrombocythemia (ET), polycythemia vera (PV), and myelofibrosis (MF), are disorders characterized by strong myeloproliferation, a chronic inflammatory state, the presence of various disease-related debilitating symptoms, high cardiovascular risk, and the intrinsic tendency to transform into secondary MF or acute leukemia. In recent years, significant advances in the MPN field have profoundly affected the diagnostic and therapeutic landscapes in MPNs. Therefore, the aim of this Special Issue is to give *JCM* readers an update on the diagnosis and the contemporary management of MPNs. In addition, manuscripts covering current controversies in the MPN field as well as original research articles providing novel concepts related to the pathophysiology, risk stratification, and management of MPNs are welcomed.

Guest Editors

Dr. Ivan Krečak

Dr. Marko Skelin

Dr. Zinaida Perić

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
