

## Special Issue

# Clinical Advances in Left Atrial Appendage (LAA) Closure Procedure

### Message from the Guest Editors

In this Special Issue dedicated to recent advances in LAAC, we are interested in original and review articles that (1) assess short- and long-term clinical outcomes of LAAC in different clinical scenarios, (2) identify clinical scores to identify high-bleeding-risk patients who could benefit from LAAC, and that (3) discuss future research directions. We are also interested in “Expert consensus statements” on LAAC from different specialties.

I am keen to discuss how we can better integrate this procedure into our clinical practice to improve outcomes for our patients with atrial fibrillation and contraindications to OAC therapy. Your insights and collaboration would be invaluable in this endeavor.

Thank you for your attention to this important issue. I look forward to your contributions and collaboration.

---

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
