

Special Issue

Orthodontics: State of the Art and Perspectives

Message from the Guest Editors

We are delighted to invite you to collaborate on our upcoming Special Issue, "Orthodontics: State of the Art and Perspectives". Recent advances in orthodontic diagnostics and treatment planning include digital applications, artificial intelligence, and 3D imaging for reconstruction techniques. These technologies will provide faster and more predictable treatments. We would like to invite orthodontist, dentists, and maxillo-facial surgeons to submit papers on the latest advances in interdisciplinary orthodontic treatment. Topics include, but are not limited to, the following:

- digital orthodontic diagnosis;
- intraoral scanners;
- facial scanners;
- treatment planning and therapy;
- aligners;
- orthodontic implants;
- orthognathic surgery cases;
- interdisciplinary orthodontic treatment;
- the dental rehabilitation of orthodontic patients.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
