

Special Issue

Pediatric Dentistry: Real-World Clinical Insights

Message from the Guest Editor

Pediatric dentistry demands more than technical expertise; it necessitates adaptability, sound clinical judgement, and a comprehensive understanding of children's oral health and behavioural development. In their daily practice, pediatric dentists are responsible for the management of a wide range of conditions affecting both primary and developing permanent teeth. The management of carious lesions, pulp therapy, traumatic dental injuries, and behavior guidance must be balanced with the individual needs of each patient. This Special Issue comprises a diverse range of subjects pertinent to pediatric dental care, reflecting the heterogeneity of actual clinical practice. This Special Issue will comprise contributions derived from well-designed studies and applied research, with the aim of addressing both common and emerging challenges. The areas explored include the management of molar incisor hypomineralization, traumatic dental injuries, novel approaches to caries and pulp management, and behaviour management strategies, among other topics.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France
