Multidisciplinary Endocarditis Perspectives

Message from the Guest Editor

Endocarditis is a complex clinical pathology with a high mortality rate despite diagnostic and therapeutic improvements. In recent years, we have seen significant changes in its epidemiological and clinical profile, with a variation in the population at risk and increase in nosocomial forms of endocarditis with antibiotic-resistant or fastidious bacteria. Endocarditis is a great simulator when it occurs with an embolic event that might lead diagnosis towards other pathologies, or it may in turn be simulated by disparate diseases. Rapid diagnostic recognition and appropriate therapy are crucial to eradicate the infection, prevent embolism, and treat cardiac failure. Guidelines provide useful support, even though they are based mainly on the opinions of experts rather than on randomized studies, with some inconsistencies between medical scientific societies. Diagnostic and therapeutic management is therefore an important clinical challenge that often requires a tailored approach. Multi-specialist involvement with structured pathways may optimize the outcome.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
