Minimally Invasive Surgical Procedures: Challenges, Advancements and New Directions

Message from the Guest Editors

Minimally invasive surgery represents an approach that has revolutionized healthcare by promoting a new era of surgery. Such procedures provide several benefits over traditional open surgery in many aspects. In addition, technological advancements have played a vital role in the evolution of minimally invasive surgery.

Laparoscopic, robot-assisted, endoscopic, and thoracoscopic surgery constitute procedures that have gained more ground and acceptance due to their significant advantages. To date, minimally invasive surgery is steadily becoming the preferred approach for treating patients with several diseases, including upper and lower gastrointestinal malignancies. This Special Issue aims to seek articles that emphasize the value of minimally invasive surgery through its widespread use in a plethora of diseases. It will also highlight novel techniques and procedures that can contribute to and transform the future of surgery.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
