

## Special Issue

# Management and Prognosis of Spinal Surgery

### Message from the Guest Editor

I am excited to announce this Special Issue focused on the “Management and Prognosis of Spinal Surgery”. This Special Issue will bring together cutting-edge research, expert opinions, and innovative practices aimed at advancing the field of spinal surgery. The management and prognosis of spine surgery involve a multifaceted approach aimed at optimizing patient outcomes. Effective management includes accurate preoperative assessment, personalized surgical planning, and careful selection of appropriate techniques, and postoperative care is critical as well, with the aim of obtaining better prognoses. Advances in predictive models, imaging technologies, and minimally invasive techniques are helping to improve both the accuracy of prognosis and the overall success of spine surgeries. With a comprehensive range of articles, this Special Issue will cover the latest techniques in surgical planning, risk assessment, and postoperative care, as well as emerging prognostic models for better patient outcomes.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
