Robotic Urologic Surgery: Clinical Applications and Advances

Message from the Guest Editors

The evolution of robotic surgery in urology over recent years has been immense. Several new robotic platforms have been introduced for the treatment of urological malignancies, and the use of artificial intelligence and telesurgery have greatly improved the accessibility and success of robotic procedures around the world. Furthermore, 3D models have facilitated safer preoperative design of robotic procedures such as robotic partial nephrectomy and robotic radical prostatectomy, while the development of more surgeon-friendly consoles has better accommodated robotic surgeons during long oncological cases. In this Special Issue, we welcome authors to submit papers on the clinical applications and advances in robotic urologic surgery for the treatment of benign and malignant urologic diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
