

## Special Issue

# Emerging Trends in Multiple Myeloma

### Message from the Guest Editor

Multiple myeloma is a biologically heterogeneous plasma cell malignancy, characterized by complex clinical presentations and a rapidly evolving therapeutic landscape. Over the past decade, advances in diagnostic criteria, risk stratification, and treatment strategies have improved patient outcomes. Nevertheless, disease relapse and treatment resistance remain clinical challenges, underscoring the need for refinement of patient care strategies. This Special Issue of the *Journal of Clinical Medicine*, titled “Emerging Trends in Multiple Myeloma”, aims to spotlight recent progress and promote discussion on clinically innovations. We welcome articles, reviews, and clinical studies addressing topics such as early diagnosis, minimal residual disease monitoring, real-world data applications, individualized treatment approaches, and supportive care. Submissions focusing on high-risk patient subsets, relapsed or refractory disease, and the influence of new therapies on quality of life and long-term outcomes are particularly encouraged. We invite clinicians and clinical researchers to contribute to this highly relevant collection and share insights.

### Guest Editor

Dr. Despina Fotiou

Alexandra Hospital, Department of Clinical Therapeutics, University of Athens, 80 Vasilissis Sofias Avenue, 11528 Athens, Greece

### Deadline for manuscript submissions

20 January 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
