

Special Issue

Emerging Diagnostic and Treatment Approaches for Gynecological Cancers

Message from the Guest Editor

This Special Issue is dedicated to exploring the latest advancements in the diagnosis and treatment of gynecologic cancers. Despite significant progress in understanding their molecular mechanisms, these malignancies continue to pose considerable challenges in clinical management. The primary objective is to investigate novel strategies for early detection, identify reliable predictive biomarkers, and enhance personalized treatment approaches, with a particular emphasis on immunotherapy, targeted therapies, and precision medicine. Additionally, this issue will cover cutting-edge developments in surgical techniques, radiation therapy, and integrative treatment modalities. We welcome original research articles and comprehensive reviews that present groundbreaking findings, aiming to offer a broad perspective on emerging opportunities to improve patient survival and quality of life. We invite contributions from oncologists, gynecologists, molecular biologists, nurses, psychologists, and other professionals engaged in gynecologic cancer research.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
