

Special Issue

Diagnosis and Management of Complications During Pregnancy

Message from the Guest Editors

In this Special Issue, we will study HDPs through the lenses of clinicians and scientists and consider what we have recently learned about biology that can bring about improvements and innovations in maternal and fetal care. We will provide a focused and in-depth exploration of novel diagnostic biomarkers and therapeutic strategies for the prevention and treatment of HDPs and their short- and long-term complications, such as cardiovascular disease.

Topics will include:

- The circulating and placental biomarkers associated with HDPs;
- The pre-conceptional characteristics and pregnancy outcomes;
- The impacts of assisted reproductive techniques on HDP development and progression;
- The clinical biomarkers during pregnancy associated with HDPs and their short- and long-term complications;
- The long-term impacts of a pregnancy complicated by an HDP;
- The impacts of multidisciplinary teams in the management of a patient before, during, and after a pregnancy complicated by an HDP.

Guest Editors

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
