Pediatric Otolaryngology: Clinical Advances and Challenges

Message from the Guest Editors

Pediatric otolaryngology encompasses a wide array of clinical conditions that require unique diagnostic approaches and treatment strategies, distinct from those used in adult cases. We aim to shed light on some of the most pressing and rapidly evolving topics in this field. Topics of interest include the following:

- Congenital Hearing Loss;
- Pediatric Vertigo and Balance Disorders: Advancements in diagnosing vestibular disorders often misattributed in children;
- Bone Conduction Implants: Outcomes and innovations for children with conductive/mixed hearing loss;
- Laryngomalacia and Subglottic Stenosis: Surgical and non-surgical management of laryngomalacia and subglottic stenosis;
- Pediatric Obstructive Sleep Apnea: Multidisciplinary approaches, from adenotonsillectomy to CPAP therapy;
- Powered Intracapsular Tonsillectomy and Adenoidectomy (PITA): Minimally invasive tonsillectomy outcomes for OSA and recurrent tonsillitis.
- Emerging technologies in pediatric ENT.

We look forward to reading your contributions and engaging in this important discussion.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
