

Special Issue

Diagnosis and Management of Aortic Diseases: Drafting from Theoretical Aspects to Clinical Practice—2nd Edition

Message from the Guest Editor

The Special Issue will encompass a selection of research works from experts in the field of aortic medicine, detailing various aspects of basic, clinical, and translational research as they may apply to the diagnosis and treatment of aortic diseases. The collection is intended as a concise yet comprehensive work that will aid surgeons in training as well as experienced practitioners in their everyday practice, providing up-to-date evidence on the topic of the diagnosis and management of aortic diseases.

- aortic disease
- aortic aneurysm
- aortic dissection
- aortic surgery
- diagnosis and management

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
