

Special Issue

Fresh Insights in Skin Disease

Message from the Guest Editor

Skin diseases span a broad spectrum, from common inflammatory disorders to rare genetic syndromes and life-threatening neoplasms. Recent advances in molecular biology, immunology, and imaging have transformed our understanding of cutaneous conditions. This Special Issue, Fresh Insights in Skin Disease, showcases the latest breakthroughs in pathogenesis, diagnosis, and management across dermatology. We welcome contributions exploring novel mechanisms in inflammatory, autoimmune, cancerous, and infectious skin diseases. Original research on the skin microbiome, emerging biomarkers, and targeted therapies is encouraged, as are reviews highlighting diagnostic challenges or new translational therapeutic strategies. Special attention is given to interdisciplinary approaches bridging dermatology with immunology, oncology, genetics, and digital health. Studies using AI, dermoscopy, or teledermatology to enhance diagnosis and patient care are of interest. This issue aims to provide clinicians and researchers with a comprehensive, forward-looking view of dermatology's evolving landscape.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
