

## Special Issue

# Mechanical Circulatory Support in Patients with Heart Failure

### Message from the Guest Editors

Heart failure is a severe cardiac condition, and mechanical circulatory support has emerged as an important therapeutic approach to assist or replace failing heart function through external devices. It has become a crucial strategy in improving the quality of life and survival rates of patients with heart failure. This Special Issue will cover various aspects, including different types of mechanical circulatory support devices, treatment strategies, and technological advancements, as well as the latest research in the field. The aim of this Special Issue is to provide comprehensive information on the application and effectiveness of mechanical circulatory support in patients with heart failure for clinical practitioners and researchers.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
