

## Special Issue

# Diagnosis, Treatment, and Management of Gastrointestinal Oncology

### Message from the Guest Editors

Gastrointestinal tumors are a common and challenging group of malignancies that have a significant impact on patients' health and quality of life. The aim of this Special Issue is to provide the latest research advances, diagnostic approaches, therapeutic strategies, and management experiences to help the medical community better meet the challenges of gastrointestinal tumors. This Special Issue covers several aspects, including but not limited to the diagnosis, treatment, and follow-up management of various gastrointestinal tumor types, including gastric, colorectal, esophageal, and pancreatic cancers. We look forward to your submissions and hope that this Special Issue will provide useful information and inspiration to our readers and contribute positively to the diagnosis, treatment, and management of gastrointestinal tumors.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
