Advances in Longevity Medicine

Message from the Guest Editors

Aging is a complex and multi-factorial set of bio-processes which affect cells, tissues and organs throughout the whole life of human beings. This natural evolutive psycho-biological degeneration of humans is of basic importance in biomedical science.

It is known that cell senescence virtually contributes to all chronic degenerative diseases (CDDs), and thus to cardio-cerebro-vascular disease, diabetes (diabetes and obesity), metabolic diseases, autoimmune diseases, neurodegeneration and psychopathologies, as well as cancer. In these patients, cell metabolism degeneration and the so-called inflammaging which derives from chronic low-grade cell inflammation have been recognized as the fundamental culprits of aging and of CDD.

This Special Issue aims to collect original research articles and, secondarily, reviews which can add value to the scientific research regarding aging processes. Through this editorial initiative we also hope to document the potential and the viable options of longevity medicine to improve the management of CDDs and of elderly patients.

Guest Editors

Dr. Attilio Cavezzi

Eurocenter Venalinfia, San Benedetto del Tronto, AP, Italy

Dr. Marios Kyriazis

National Gerontology Centre, Larnaca, Cyprus

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
