Myocardial Infarction: The Latest Advances and Prospects

Message from the Guest Editors

We are preparing a new Special Issue entitled 'Myocardial Infarction: The Latest Advances and Prospects', scheduled to be published in the *Journal of Clinical Medicine*, and we would like to invite you to submit your research papers. Despite significant advances in both pharmacological and interventional strategies, myocardial infarction continues to represent a leading cause of mortality and morbidity. Recent advances and prospects, such as next-generation antiplatelet agents as well as advanced intracoronary and echocardiography imaging techniques, are forming a new era of myocardial infarction management. Therefore, researchers in the fields of cardiology and the latest advances and prospects of myocardial infarction are invited to submit their research work, original articles, and reviews to this Special Issue.

Guest Editors

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
