Management of Treatment and Prognosis in Acute Kidney Injury Patients

Message from the Guest Editors

Acute kidney injury (AKI) is a worldwide public health problem associated with high morbidity and mortality. Moreover, AKI is now identified as a heterogeneous clinical syndrome that has multiple etiologies and variable pathogenesis. These heterogeneities affect the diagnosis and treatment of AKI. This Special Issue will publish a novel and exciting science which addresses the clinical management and fundamental mechanisms of AKI. The scope covers translational medicine research, new drug design, and clinical trials, new diagnostic methods, genetics analysis, cellular death and inflammation, signaling, and gene expression. The study of new technologies or materials is also welcomed. Studies should offer new insights into fundamental mechanisms and therapeutic strategies in AKI. We accept primary research papers, reviews, and commentaries. Short Takes about findings of exceptional relevance and interest in the related area are also welcomed.

Guest Editors

Prof. Dr. Lili Zhou

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
