Advance in Orthopedic Trauma Surgery

Message from the Guest Editors

The field of orthopedic trauma has always been a discipline with rapid innovations and creative evolution. We see an evolution in every facet of orthopedic surgery, from the transformation of implant design and biomechanical understanding to the understanding and monitoring of fracture healing and the management of complications. Continual progress is being made in the fields of implant design and implant coating for osseous integration or infection prophylaxis. There is a trend towards interdisciplinary approaches to managing complex injuries involving soft-tissue and osseous structures and their complications in order to meet the patients' needs, since the demographic trends are leading to older and older patients with frequent comorbidities. Digitalization offers us the possibility of connecting with cooperating disciplines in a time-saving way to individualize and optimize therapy for our patients, even in a rural or conflict-based infrastructures lacking experts from certain disciplines. This Special Issue addresses the aforementioned advances in orthopedic trauma surgery based on a combination of original research and review papers.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
