

Special Issue

Current Advances in Gastroesophageal Reflux Disease

Message from the Guest Editor

The Editors of the *Journal of Clinical Medicine* have decided to publish a Special Issue, entitled "Current Advances in Gastroesophageal Reflux Disease", for which I was invited to be the . This Special Issue is committed to publishing articles on innovative topics that will influence the future of clinical care and the treatment of patients with Gastroesophageal Reflux Disease (GERD), and recent progress in research on GERD and related topics. This Special Issue aims to present a wide range of advances in basic and clinical research on GERD. We kindly encourage clinicians and researchers working in GERD and related fields to submit original research articles, clinical trials, reviews of the current literature, and letters to the Editor. All manuscripts will be peer-reviewed.

Guest Editor

Prof. Dr. Antoni Stadnicki

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
