Clinical Advances in Prenatal Diagnosis and Fetal Therapy

Message from the Guest Editor

In the last decade, significant advancements have been made in the field of prenatal diagnosis and fetal therapy, with a focus on the early detection of genetic disorders, congenital anomalies, and fetal health conditions. These developments have led to improved outcomes for both mothers and their babies. The increasing use of non-invasive prenatal testing, advancements in imaging techniques, and the growing application of fetal therapy are transforming clinical practice. This Special Issue aims to showcase the latest clinical research, innovations, and therapeutic strategies that are shaping the future of prenatal care. It will highlight emerging technologies, diagnostic tools, and novel interventions that provide hope for better outcomes in high-risk pregnancies. The topics of interest for publication in this Special Issue include, but are not limited to, non-invasive prenatal testing, fetal imaging technologies, genetic screening, in utero treatments, stem cell therapies, and advances in fetal surgery.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
