A Holistic Approach to Management of Complications in Hemodialysis

Message from the Guest Editor

Hemodialysis (HD) serves as a vital therapy for patients suffering from end-stage renal disease (ESRD). As a predominant form of renal replacement therapy, it addresses the critical decline in kidney function experienced by a growing global population. Effective management requires personalized, patient-focused strategies, collaboration with multiple disciplines, and monitoring of complications while also addressing the emotional, social, and psychological needs of patients. This integrative approach is essential to move beyond mere life extension and towards enabling a more sustainable and fulfilling life for patients on chronic dialysis.

This Special Issue aims to investigate contemporary and holistic approaches to the care of HD patients. We invite original research articles and reviews that focus on clinical practices, technological advancements, preventive strategies, patient-centered interventions, etc., with the objective of improving clinical outcomes and quality of life of individuals receiving hemodialysis.

About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France
