

Special Issue

The Journey of Hearing and Hearing-Related Disorders over Time

Message from the Guest Editors

We invite you to contribute to a Special Issue on "The Journey of Hearing and Hearing-Related Disorders over Time". Loss of hearing or the development of hearing-related disorders can lead to significant changes in the auditory stimulation to the brain, the perception of the environment and can trigger behavioral changes in the affected persons. These changes can be understood as a dynamic process developing over time. In this special issue, we want to collect scientific work that helps to understand better the development of hearing and/or hearing-related disorders over time as well as influencing factors for this temporal development and how different treatment strategies improve the impairment or the perceived disability of the affected people. Also, methods suitable to study those processes over time, like ecological momentary assessment are of interest. We welcome original research articles and systematic reviews on the development of hearing or hearing-related disorders over time, the impact of an interaction between hearing loss and hearing-related disorders on the progress, the influence of potential treatments and methods to evaluate progression of hearing loss over time.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
