New Clinical Advances in Sudden Cardiac Arrest and Ventricular Arrhythmias

Message from the Guest Editor

Cardiac arrest and ventricular arrhythmia remain two of the main challenges for modern medicine: survival after cardiac arrest is still low and the best way to prevent and treat ventricular arrhythmias can be improved. Research on cardiac arrest and ventricular arrhythmia should focus on the prevention, diagnosis and treatment of these life-threatening conditions. We would like to cover all the above-mentioned topics, from prevention to diagnosis and treatment, to enhance the knowledge on cardiac arrest and ventricular arrhythmias in order to improve patient outcome. Particular attention will be paid to new technology and strategies, such as non-invasive ablation and neuromodulation.

Guest Editor

Dr. Simone Savastano

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
