# **Special Issue**

# Acute Coronary Syndromes | Circulation Research

# Message from the Guest Editors

Acute Coronary Syndromes (ACS) remain a leading cause of morbidity and mortality worldwide, representing a critical area in cardiovascular medicine where rapid advances in research and innovation can translate into lifesaving improvements in care. Yet key challenges persist: residual risk, treatment complications, care access disparities, and outcomes in understudied groups. This Special Issue focuses on cutting-edge research tackling these challenges and deepening ACS understanding. We invite original research, state-of-the-art reviews, and meta-analyses on the latest evidence/emerging strategies for ACS prevention, diagnosis, and management. Topics of interest include, but are not limited to:

- Novel biomarkers and imaging modalities for early detection and risk stratification
- Advances in cardiovascular therapy and personalized medicine
- Mechanistic insights into plaque rupture, thrombosis, and microvascular dysfunction
- Management of special and high-risk populations (e.g., women, older adults, patients with diabetes or chronic kidney disease)

We look forward to receiving your contributions that will help shape the future of ACS research and clinical practice.

# **About the Journal**

# Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

# **Editors-in-Chief**

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of Tokyo, Tokyo, Japan

# **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

## Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

# **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
