Eating Disorders: Current Epidemiology and Advances in the Diagnosis and Treatment

Message from the Guest Editor

Eating disorders represent a multifaceted challenge affecting individuals across various sociocultural contexts and age groups, primarily impacting adolescents and young adults, and carrying significant implications for both physical and mental health, as well as broader societal impacts. Understanding the prevalence and distribution of eating disorders is essential for developing strategies to address them in public health and clinical settings. Therefore, we encourage research that delves into the epidemiology of eating disorders and their social and lifestyle determinants, aiming to characterize their prevalence and related factors across diverse sociocultural contexts and age groups. Moreover, we seek contributions that emphasize a comprehensive approach to the diagnosis and treatment of eating disorders. This includes systematic reviews and studies focusing on screening methods to enhance early detection and intervention by healthcare providers. Additionally, we welcome research proposing and evaluating non-pharmacological strategies for prevention, alongside alternative pharmacological treatments.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
