Clinical Advances in Lower Limb Trauma and Orthopedic Surgery: From Bench to Bedside

Message from the Guest Editors

Recent years have seen remarkable progress in our understanding and management of lower limb trauma, from biomechanical fixation studies and implant innovations to advanced surgical techniques and perioperative care. However, the clinical translation of these advances remains challenging due to the diversity of fracture patterns, patient profiles, and soft-tissue conditions. This Special Issue, “Clinical Advances in Lower Limb Trauma and Orthopedic Surgery: From Bench to Bedside”, will bridge the gap between experimental research and real-world clinical practice. We welcome original research articles, technical notes, and comprehensive reviews focusing on innovative fixation methods, arthroplasty in trauma, minimally invasive approaches, postoperative outcomes, and rehabilitation strategies. Submissions highlighting translational or multidisciplinary perspectives—from biomechanics and biomaterials to clinical outcomes—are especially encouraged. We hope this Special Issue will provide an integrated platform for sharing new insights and collaboration between basic scientists and orthopedic surgeons working toward improving patient outcomes in lower limb trauma care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
