

## Special Issue

# Clinical Guidance for Breast Reconstruction

### Message from the Guest Editor

Breast tumors are one of the most common malignancies among women all over the world. Thus, the scientific progress and advancements in surgical breast tumor removal and breast reconstruction have a high impact on the mortality and morbidity, as well as on psychosocial wellbeing, for thousands of women all over the world. Surgical treatment of localized breast cancer and the subsequent breast reconstruction has evolved rapidly during the last years. The results are getting better and better. There are many surgical options to recreate a natural-appearing breast after tumor removal. Therefore, I encourage you to submit your work on the recent advances in breast reconstruction to this Special Issue of the highly-impacted *Journal of Clinical Medicine*.

### Guest Editor

Prof. Dr. Gottfried Wechselberger

Department of Plastic, Reconstructive and Aesthetic Surgery, Hospital of the Brothers of St. John of God, Paracelsus Medical University Salzburg, Kajetanerplatz 1, 5020 Salzburg, Austria

### Deadline for manuscript submissions

closed (30 June 2021)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
