Knee Arthroplasty Surgery: Management and Future Opportunities

Message from the Guest Editors

We find ourselves standing at a pivotal moment in the realm of knee arthroplasty surgery. For nearly half a century, the landscape of this surgical field has seen limited transformations. This profound transformation currently underway focuses on the integration of personalized medicine principles into knee arthroplasty. This Special Issue endeavors to serve as an inclusive platform for disseminating these innovative contributions and expanding our knowledge. Topics to be explored include:

- New concepts in alignment;
- The integration of technology in knee arthroplasty;
- Advancements in customized surgery;
- Exploring extended reality and immersive technologies;
- Defining the limits and unveiling future challenges.

We invite you all to be part of this transformative journey. Together, let us delve into the forefront of knee arthroplasty, redefining the landscape of this discipline and improving the lives of our patients.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France
