

## Special Issue

# Mitral Valve Stenosis or Aortic Valve Stenosis: Progress from Diagnosis to Treatment

### Message from the Guest Editor

Degenerative valve disease with fibrocalcific aortic and mitral valve stenosis represents an increasing issue in the context of an aging population and evolving treatment options. The long-standing debate between surgical and transcatheter approaches in aortic stenosis continues, and the optimal timing of intervention remains controversial, particularly in asymptomatic severe disease and symptomatic moderate disease. Moreover, the presence of concomitant valvular disease presents a particularly challenging clinical scenario. In this Special Issue, we invite the submission of original research articles and reviews focused on diagnostic strategies, timing of intervention, long-term outcomes, and novel techniques for addressing mitral and/or aortic stenosis. Contributions exploring the management of concomitant valvular disease are especially encouraged. We look forward to receiving your work. Please click [here](#) to find more information

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
