

Special Issue

Clinical Advances in Orthopedic Infections

Message from the Guest Editor

The complexity of orthopedic infections and their profound impact on patient outcomes has been widely recognized over recent decades. We are honored to present this Special Issue, which provides a platform for sharing the knowledge, experiences, and latest advancements from leading experts in the field of orthopedic infections. Orthopedic infections significantly impair the quality of life of patients and introduce complex challenges in therapy. Thanks to recent research and technological progress, there have been notable advancements in the prevention, diagnosis, and treatment of these infections. This Special Issue explores such advancements, addressing the current challenges and envisioning future possibilities in the management of orthopedic infections. By connecting clinical insights with scientific breakthroughs, our objective is to illuminate the path forward in the management of orthopedic infections. We anticipate that this Special Issue will act as a pivotal force in enriching our understanding of orthopedic infections and fostering discussions aimed at establishing best practices in patient care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
