

## Special Issue

# New Advances in Orthopedic Knee Joint Preserving and Reconstructive Surgery

### Message from the Guest Editors

In the field of orthopedics, surgical techniques and tools are advancing at a remarkable pace. Through various innovative approaches and technologies, we continuously strive to achieve the best possible clinical outcomes for our patients. In particular, minimally invasive arthroscopic surgery, patient-specific instrumentation (PSI), and robotic-assisted surgery have already been widely adopted in clinical practice.

Additionally, experimental methods—such as utilizing magnetic fields to guide chondrocytes to cartilage lesions—are actively being developed. Through this Special Issue, we hope to provide a comprehensive overview of current advancements in knee surgery and to examine the developmental stages of various emerging technologies that may shape the future of this field.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
