Oral and Maxillofacial Surgery: Current Advances and Future Directions

Message from the Guest Editor

The field of Oral and Maxillofacial Surgery is being transformed by groundbreaking innovations. Digital planning and 3D printing have revolutionized surgical precision, enabling customized solutions for maxillofacial reconstruction and trauma management. Advancements in temporomandibular joint treatments offer improved therapeutic options for disorders that significantly impact quality of life. In parallel, novel approaches in oral oncology are providing more effective and less invasive treatments for patients. The integration of AI is also unlocking new possibilities, from enhancing diagnostic accuracy to personalizing treatment planning and streamlining workflows. This Special Issue invites contributions that delve into these advancements and their applications in clinical practice, aiming to bridge gaps between research, innovation, and patient care. By bringing together insights from global experts, seeks to inspire collaboration and drive progress in Oral and Maxillofacial Surgery.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
