

Special Issue

Neurosurgery and Spine Surgery: From Up-to-Date Practitioners

Message from the Guest Editor

The Special Issue titled "Neurosurgery and Spine Surgery: From Up-to-Date Practitioners" provides a comprehensive overview of the latest advancements and best practices in the fields of neurosurgery and spine surgery. This collection of articles showcases cutting-edge research, techniques, and clinical experiences from leading experts in these disciplines. The Special Issue focuses on research articles and reviews, emphasizing the exclusion of case reports to maintain a high level of scientific rigor. Topics covered include innovative surgical approaches, emerging technologies, perioperative care, patient outcomes, and interdisciplinary collaboration in the treatment of neurological and spinal disorders. This compilation serves as a valuable resource for healthcare professionals, researchers, and students interested in staying current with the rapidly evolving landscape of neurosurgery and spine surgery. The contributions of seasoned practitioners shed light on the most pressing issues and promising developments in these crucial medical specialties.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
