

## Special Issue

# Antithrombotic Therapies for Acute Coronary Syndrome and Atrial Fibrillation

### Message from the Guest Editor

Atrial fibrillation (AF) and acute coronary syndrome (ACS) significantly increase the risk of thromboembolic events. Treatment of these conditions has evolved from vitamin K antagonists and aspirin to novel antithrombotic therapies, reflecting advances in our understanding of the pathophysiology of these conditions. This Special Issue looks at the latest developments in antithrombotic therapy for AF and ACS, highlighting innovative approaches to prevention and treatment as well as the challenges in clinical practice. We are soliciting original research articles, reviews and clinical trials that address the latest advances in antithrombotic therapies for patients with AF and ACS. Our aim is to highlight innovative strategies, evaluate current treatment protocols and identify gaps in knowledge that require further investigation. We encourage submissions that address the efficacy and safety of novel anticoagulants, patient-centred approaches to therapy selection, and the integration of technology in the monitoring and treatment of these conditions.

### Guest Editor

Dr. Mojca Božič Mijovski

Department of Vascular Diseases, University Medical Centre Ljubljana, 1000 Ljubljana, Slovenia

### Deadline for manuscript submissions

20 December 2025

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
