Interaction Between Systemic Diseases and Oral Diseases

Message from the Guest Editor

Many systemic diseases affect oral health, either directly or as a result of medical treatment. Conversely, the condition of the mouth can affect the functioning of other parts of the human body. Although many such interactions between systemic diseases and oral diseases have already been described, the underlying pathophysiological causes of these interactions remain unclear. In addition, many potential interactions between internal organs and the oral cavity have not yet been investigated. Therefore, this Special Issue of JCM aims to compile studies on the interaction between systemic diseases and oral diseases, and to contribute to enhanced communication between the medical and dental disciplines, which often still function independently of each other.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
