

## Special Issue

# Obsessive Compulsive Disorder: Clinical Advances and Future Perspectives

### Message from the Guest Editor

Obsessive compulsive disorder (OCD) is a complex and often debilitating mental disorder characterized by persistent, unwanted thoughts (obsessions) and repetitive behaviors (compulsions) performed to relieve distress. Despite significant advances in the understanding of OCD, many aspects of its etiology, pathophysiology, and treatment remain unclear. This Special Issue aims to consolidate the latest research and clinical findings on OCD and to promote a comprehensive understanding of the disorder. We invite contributions that explore neurobiological underpinnings, genetic and environmental influences, and innovative therapeutic interventions. In addition, we welcome studies on the impact of comorbid conditions, advances in diagnostic criteria, and the development of novel treatment modalities. By bringing together a diverse range of high-quality research works, this Special Issue aims to advance our knowledge of OCD, promote evidence-based practice, and ultimately improve outcomes for individuals affected by this challenging disorder.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
