

Special Issue

COVID-19: Clinical Advances and Challenges

Message from the Guest Editors

The year 2020 was a year of deep distress and loss for health care professionals and citizens worldwide. During the first wave of the pandemic, our therapeutic armamentarium was empty and the outcomes, poor. Thankfully, the global research community was able to conduct meaningful research in the middle of the pandemic leading to the approval of medications that have had an impact on mortality. The year 2021 is a year of hope. Millions of people are receiving efficacious vaccines every day. On the other hand, mutated variants are causing uncertainty about how fast we will be able to return to our pre-COVID-19 life. It is not unlikely that SARS-CoV-2 will remain a significant challenge for the next few years. The present Special Issue aims to present real-world experience and high-quality reviews on the efficacy and safety of therapeutics and vaccines, and we would like to kindly invite you to participate with your original and secondary research in this endeavor.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
